

Notification of Microchip ID for ADMS Registered Longear

The following animals were Microchipped by _____
 (person's name)

On _____ (date). The barcode or number for the microchip has been added to the
 registration papers by this person or the owner of the animal. Owner's Name _____

City _____ State _____ Phone number _____

Animal Name	Registration #	Electronic Implant Number	Brand	Location of Chip
Example—My Farm Baby Doll	MDR 600	123*456*789	Avid	Back base left ear

Recommended locations for microchips are: back base left ear, front base left ear, left nuchal ligament. Other locations should be discussed with your vet and specified on the papers. YOU DO NOT need to return the certificate to ADMS only to indicate a microchip number, brand, or DNA on file. You may, however, have these added to the papers during updates or transfers at no additional cost.
